Ticket Vendor (Time Pass Only): No  Yes  QTY: \_\_\_\_\_  Time Pass Secondary QTY: \_\_\_\_\_

Cabinet:  Painted cabinet (used with stainless hood and brick installations).  
 Brushed cabinet (used when cabinet body will be exposed and no hood will be used)

Only Hamilton brand validators will accept the popular Hamilton Tokennote®. Coinco® and MARS® paper tokens will not work with Hamilton Equipment.

Bill Validator:  Hamilton XE (with Tokennote® acceptance)  MARS® (Cannot accept MARS® or Hamilton Tokennotes®)  
 CASHCODE® (required for Canadian versions, no Tokennote® acceptance)  MARS® MDB (required for Canadian versions)

## TWO COIN ACCEPTORS ARE STANDARD ON ALL HAMILTON PAY STATIONS. HOW SHOULD THEY BE CONFIGURED?

All Gold Line® ACW's are equipped with two coin acceptors. One feeds the coins accepted into the hopper to reuse for change. The second drops the coins into a collection box. Slugbuster™ brand is standard. The IDX® is an option and allows acceptance of up to five different coins (three coin and two types of tokens) on the collection box side.

**1. Hopper Side Coin Acceptor** (Coins are recycled into the hopper and dispensed as change.) What coin will be given as change?

Coin Type (One type only):  Quarter  Dollar Coin  Two Dollar Coin  Token (Size \_\_\_\_\_)

Coin Acceptor Options:  Slugbuster® (Included as standard)  IDX® (Additional fee. Recommended for \$1 coins.)

**2. Secondary Coin Acceptor** Slugbuster® for a single type of coin, IDX® for multiple coins. These coins drop into a collection box. Which additional coins do you wish to accept?

Coin Type (Max. 5 types, 3 coin and 2 token):  Quarter  \$1 Coin  \$2 Dollar Coin  Token Size \_\_\_\_\_

Coin Acceptor Options:  Slugbuster® (Included as standard)  IDX® (Additional fee. Needed if multiple coin acceptance is desired.)  
**Will you be using IDX® Coded Tokens?**  YES  NO

**Credit Card Acceptance:**  NO  YES If yes, please select processing method below:

DIALUP (Setup fee applies) A dedicated phone line is necessary for each ACW.

HIGH SPEED INTERNET (Software upgrade fee; for use with D.A.N. system) Internet Based High Speed Credit Card Processing: Only one D.A.N. computer is needed per location. The operator also needs to provide broadband Internet service with a static IP address. Please note this is the only method available for credit card processing in Canada.

Receipt Printer:  NO  YES This provides receipts to customers. It also allows the operator to print a report from their ACW.

Receipt Paper (Part #49-9396): QTY: \_\_\_\_\_ Per Roll 2.25" W x 400' L

Add Audit Pro Handheld Programming Kit (Part #100-0136) Important: Not included, required for credit card and D.A.N. setup.

**Display:** Choose which instructional display you'd prefer for you application. Either the single line standard or the new graphic interface.

Standard Single Line Display  Graphic Instructional Screen (Additional fee)  With custom welcome screen (Additional fee)

**Voice Prompts:**  Male  Female  Custom (Call Hamilton for information)

Standard on all ACW's. You have a choice between a male or female voice. If the operator would like custom greetings or prompts, Hamilton offers to make customized voice prompts. Call for details.

When adding credit card acceptance, please provide us with a customer business and contact name and address so we may send them the appropriate Credit Card Setup Packet. When the credit card option is added, the operator's credit card processing company needs to provide Hamilton or E-xact Transactions Ltd. with the information necessary to configure the transaction software. An information pack is sent to the listed contact which explains what information is needed and contains the required forms. This information is required before credit card acceptance can be activated.

**Send Credit Card Setup Packet To:** Business: \_\_\_\_\_ Attention: \_\_\_\_\_

Address: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_ Fax: \_\_\_\_\_

Is this the site the equipment is getting installed at?  Yes  No If no, please list address equipment is being installed at:

Business: \_\_\_\_\_ Address: \_\_\_\_\_

**OPTIONS:**

- Add Deluxe D.A.N. Computer (Part #49-9490)** The Deluxe version of the D.A.N. computer comes with a touch screen and card reader/programmer. This version would be used when there is no room to set up a standard keyboard, monitor and mouse.
- Add Basic D.A.N. Computer (Part #49-9489)** This version has no touch screen or card reader/programmer. The operator will need to provide a keyboard, monitor and mouse. The card reader/programmer is available separately for purchase.
- Add Card Reader/Programmer for D.A.N. system (Part #49-9442)** This allows for manual credit card transactions at a computer as well as the programming and recharging of Customer Value Cards. These can be connected to a D.A.N. computer as well as a home, office or lap top computer. Included with the Deluxe D.A.N., optional add on for the D.A.N. Basic.
- Add Transaction Receipt Printer for D.A.N. system (Part #100-0118 )** This allows the owner to print receipts directly from the DAN computer.
- Customer Value Card Remote Programming Terminal (Dial Up Connection #49-9443)** This will program customer value cards inside a store or at a remote location.
- Customer Value Card Remote Programming Terminal (Internet Connection #49-9493)**
- Add Lighted Stainless Steel Hood (Part #61-0590A)** is an alternative ACW mounting method. Please refer to the Hamilton ACW Brochure for pictures. It is not used when mounting into a brick enclosure or with the brushed steel cabinet. Interactive scrolling display can be added to the hood also.
- Add Lighted Stainless Steel Hood with Scrolling Display (Part #61-0590C)** (Can only be used with painted cabinet.)
- Add Brick Mount External Scrolling Display (Part #61-0594D)** These allow for four lines of advertising when idle. When a customer inserts cash or makes a selection, the interactive display shows the same messages as the smaller in-door display. This overcomes many sunlight problems. This display can be built into the hood or is available in a separate enclosure for mounting remotely and on a brick enclosure.
- Add Brick Mount External Scrolling Display with Tilting Mounting Cover (Part #61-0594E)**
- Add Stainless Steel Console Base (  20" Part #61-0592A) or (  26" Part #61-0581A )** Stainless steel bases are available as an alternative method to a brick enclosure. Because the mounting bolts are exposed, the pedestal base is not recommended unless covered or bolts are welded to prevent theft.
- Add Pedestal Mounting Base (  20" Part #61-0582A) or (  26" Part #61-0589A)** Pedestal bases are available to provide a platform for building a brick surround. Because the mounting bolts are exposed, the pedestal base is not recommended unless covered or bolts are welded to prevent theft.
- Add 10' Gate (Part #49-9476) - Quantity: \_\_\_\_\_**
- Add 12' Gate (Part #49-9573) - Quantity: \_\_\_\_\_**
- Add Gated PLC Controller (Part #49-9472)**
- Add Loop Antenna (Part #49-9478) Quantity: \_\_\_\_\_** Required for use with gates.
- Locking Stacker Cover (Part #36-0052A) For use with XE Validator only.**
- RFID Harness (Part #100-0165)** Required for use with RFID.
- Add Portable Thermal Report Printer (Part #47-2021A)** When the receipt printer option is not ordered, this portable printer will allow hard copy reports to be obtained at the ACW.

**Gold Line® Parking (Fixed Fee Structure)  
Time Pass® (Variable Fee Structure):**

As a courtesy to you and your customers, Hamilton will pre-set the payment options, receipt header and footer if requested. Please document the requested payment structure and receipt verbiage and include them on a separate sheet of paper when submitting this form.

**Pay and Display Version:**

As a courtesy to you and your customers, Hamilton will pre-set the eight "time and price" blocks, receipt header and footer if requested. Please document the requested receipt verbiage and include it on a separate sheet of paper when submitting this form.
